Adam was one of the best TA's I've ever had. He was very helpful, but also funny and gave light-hearted humor to our class discussions. I could ask him anything, and he would give a brief rundown of the lab beforehand too.

Adam is probably the best TA I have had the pleasure of meeting during office hours and lab. He breaks down complex topics into meaningful ideas so that they are easy to understand. His wit and approachability makes him a great proponent for students and his enthusiasm towards the subject make me want to keep studying statistics.
